

To add the Empire Access streaming channel to your Roku device:

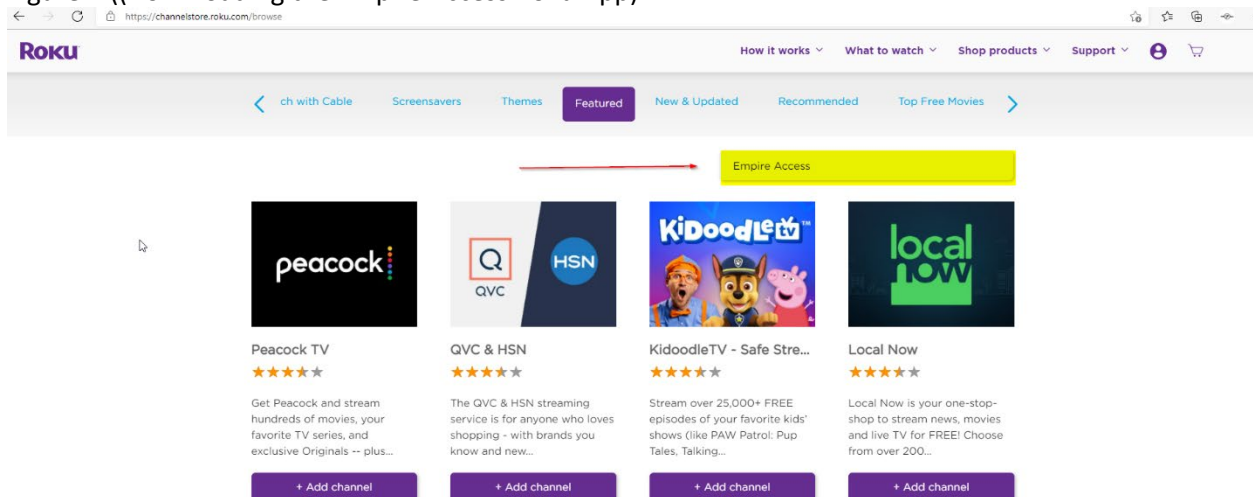

Step 1: Enter www.roku.com into your web page URL. You can also click on the link provided.

Step 2: On Roku's main page, highlight "What to Watch" to open the drop down on the top right hand side of the page.

Step 3: In the drop down, click on "Channel Store"

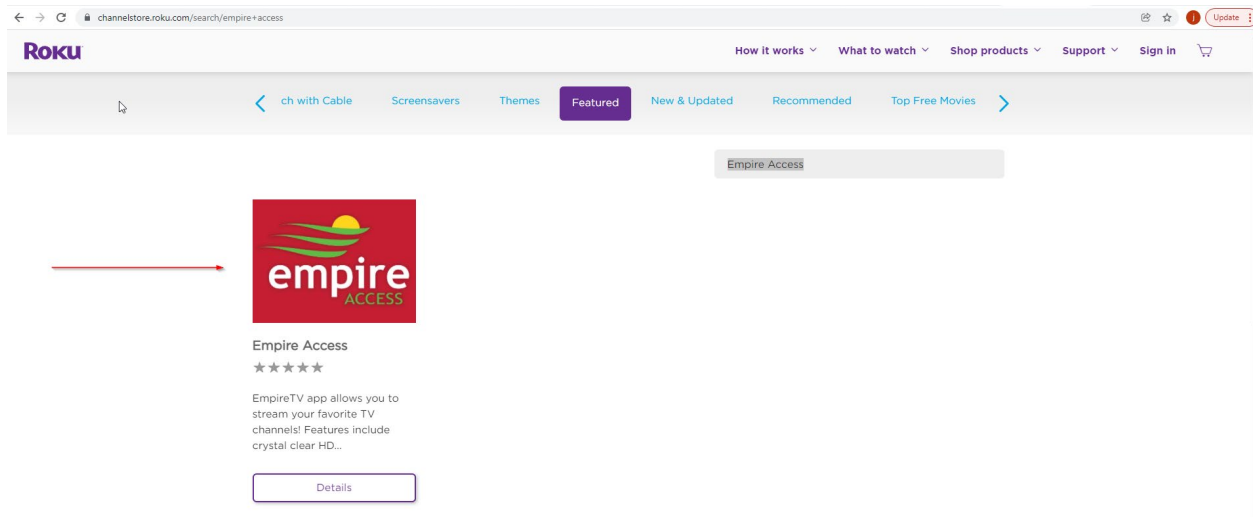

*Please refer to the Figure 1 for a visual description

Figure 2 ((Downloading the Empire Access Roku App)

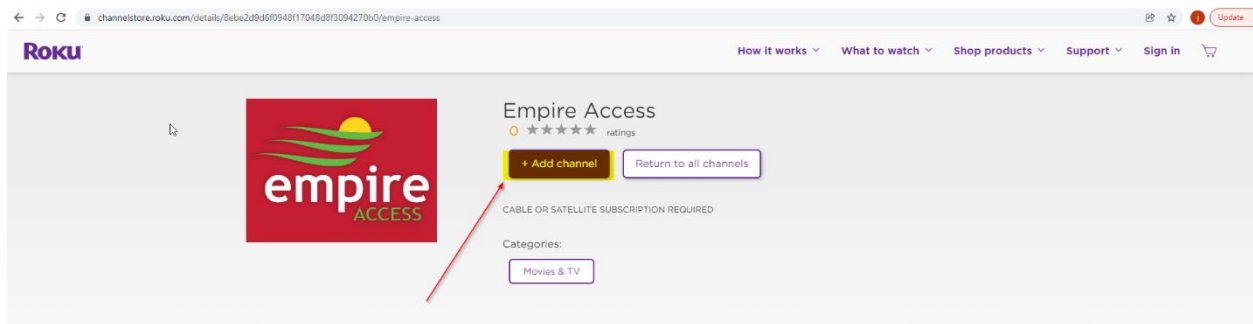

Step 4: Once you have entered the "Channel Store" type **Empire Access** into the search bar as shown in Figure 2. Once Empire Access has been entered into the search bar press "Enter".

Figure 3 (Downloading the Empire Access Roku App)

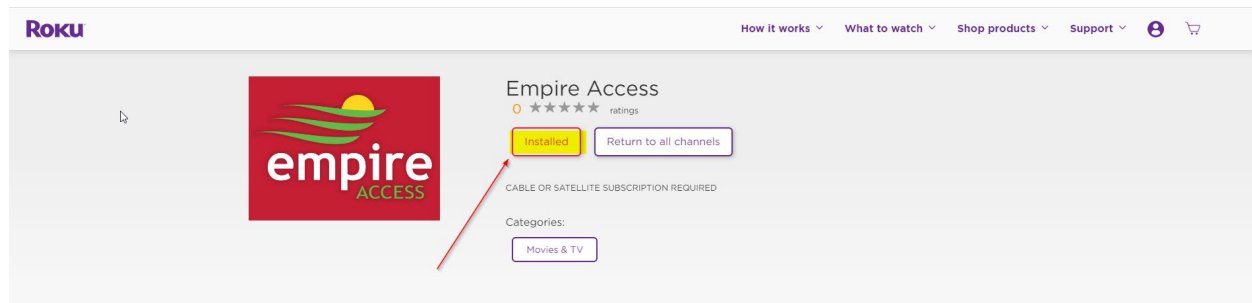

Step 5: You have entered the Empire Access TV app page. Click on the icon and indicated by the red arrow. You can also click on the details link below the icon for more information about the streaming app.

EmpireTV app allows you to stream your favorite TV channels!
Features include crystal clear HD signal.

Step 7: Once the app has downloaded properly to your Roku device, the icon you clicked on in step 6 will now say “installed” indicating that the download process is complete.

Congratulations! You are almost done. The rest of the steps will be completed on your Roku device. Please ensure your Roku device is update to date with the latest software version before completing the final steps.

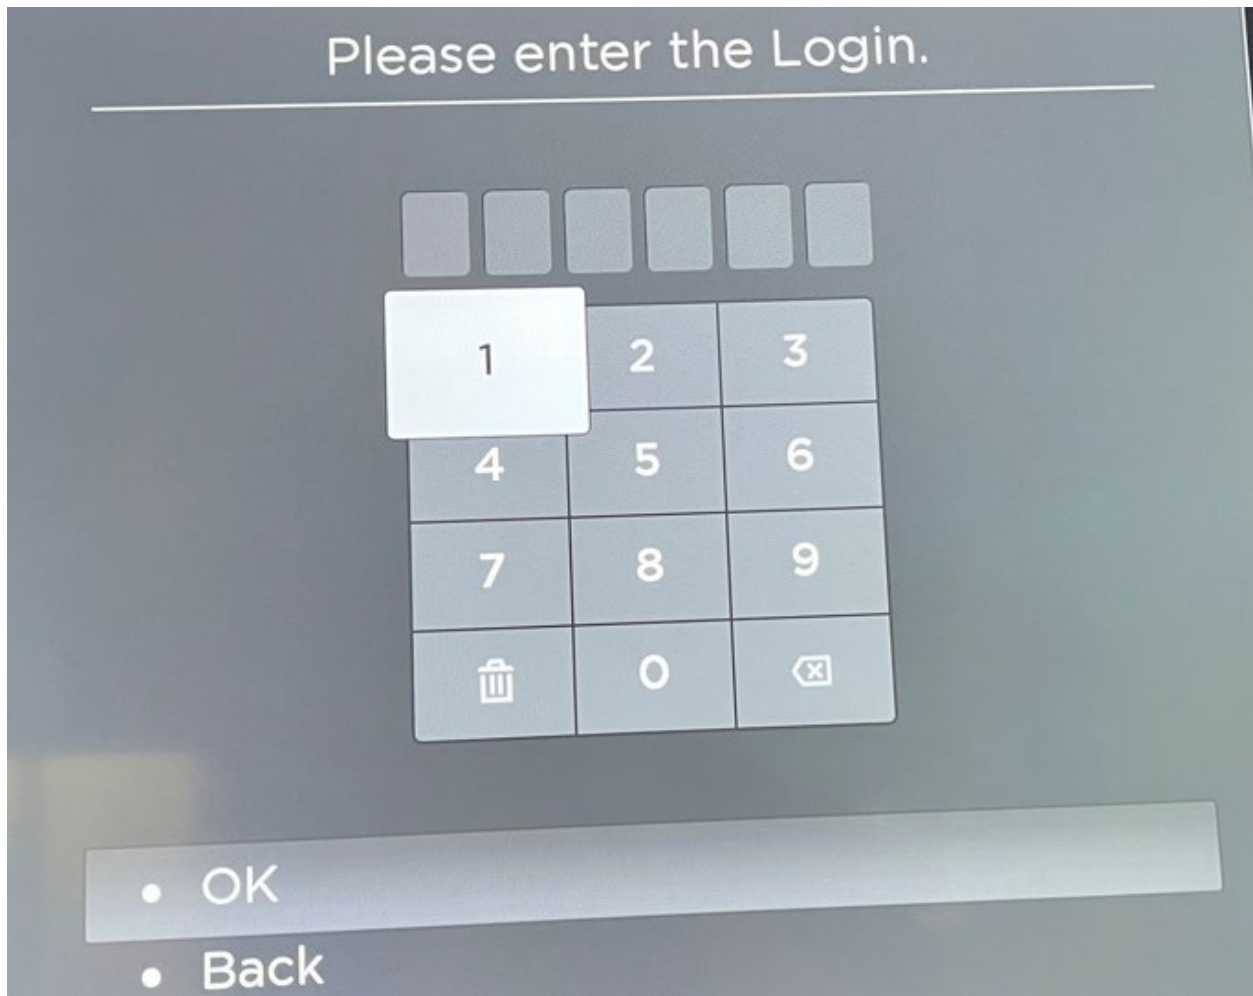

Figure 6 (Launching the App on a Roku Device)

Step 8: Using your Roku remote, access the home screen and use the arrow keys to navigate to the newly install Empire Access App.

Step 9: Highlight the Empire Access App icon and press OK.

Figure 7 (Launching the App on a Roku Device)

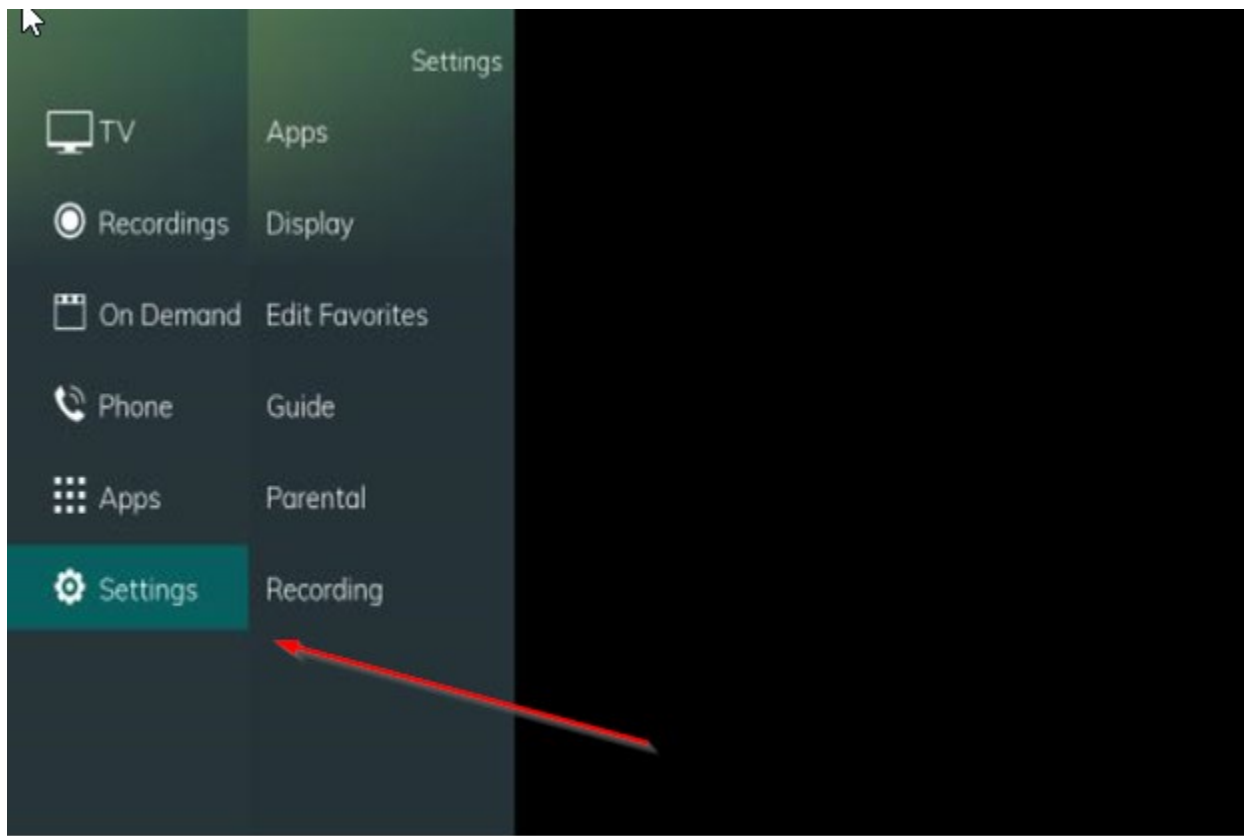

Step 10: Once you hit the ok button on your Roku remote, the app will prompt you to enter a device log in code.

Note: If you are an Empire Access customer and you have a Set Top Box (STB) or also known as a TV box you can generate this device login code yourself.

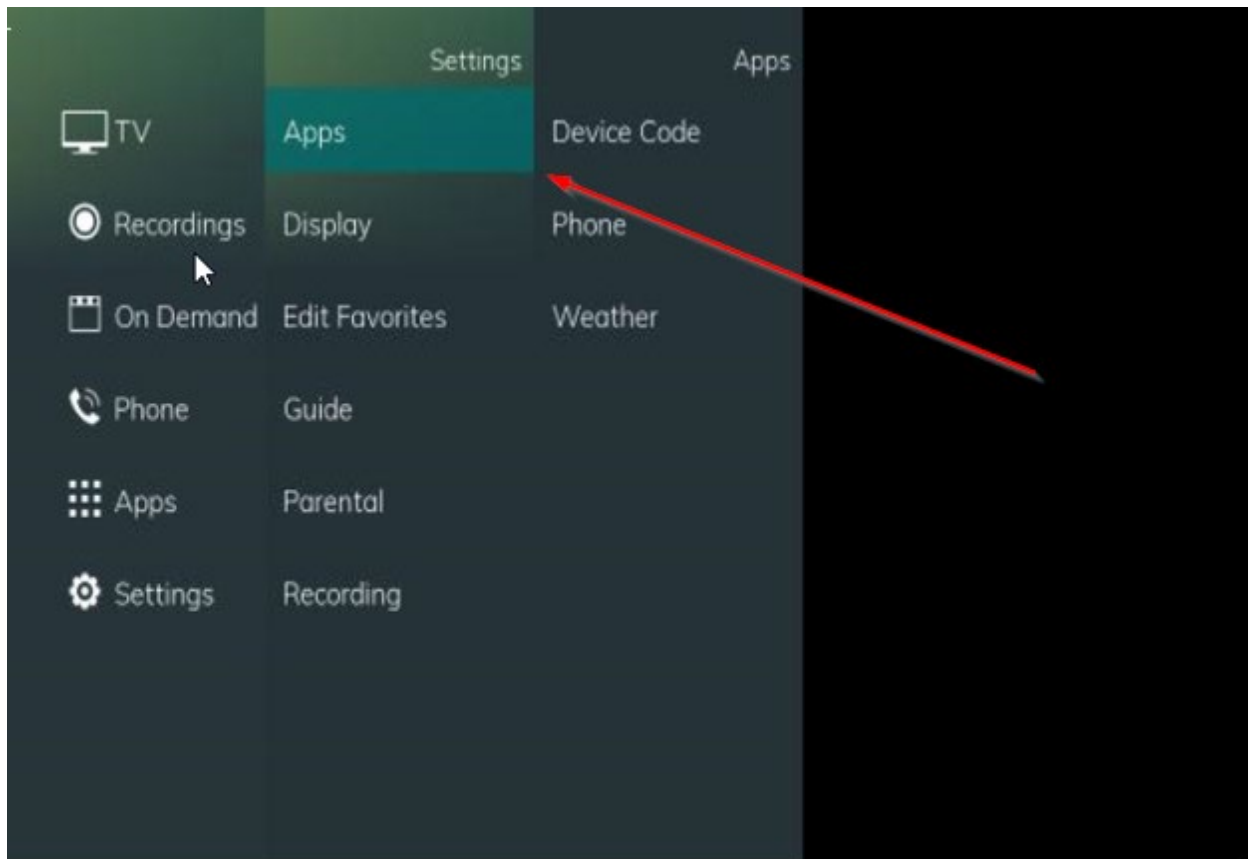

If you do not have a Set Top Box or you do not wish to generate your own device code, please call 1-800-838-3800 and one of our dedicated support team members will be happy to perform this step for you.

If you do have a Set Top Box and would like to generate your own code, please see the next few step below.

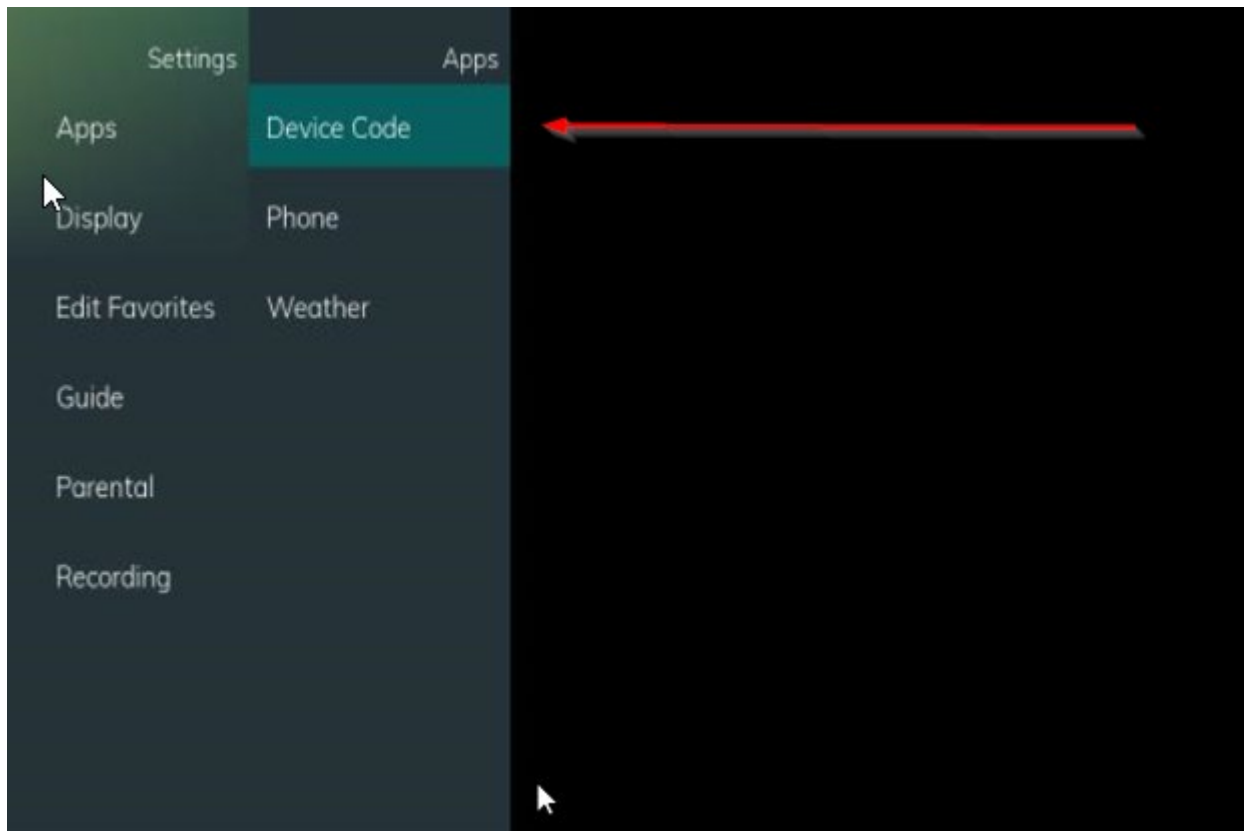

Step 11: Using your **Empire Access Set Top Box remote**, locate the menu button and press once. As shown in figure 8 above, you will want to highlight the Settings tab. To facilitate this, press the down arrow key on your Empire Access Set Top Box remote till the blue bar highlights Settings. After this is highlighted, press the OK button.

Figure 9 (Generating a Device Login)

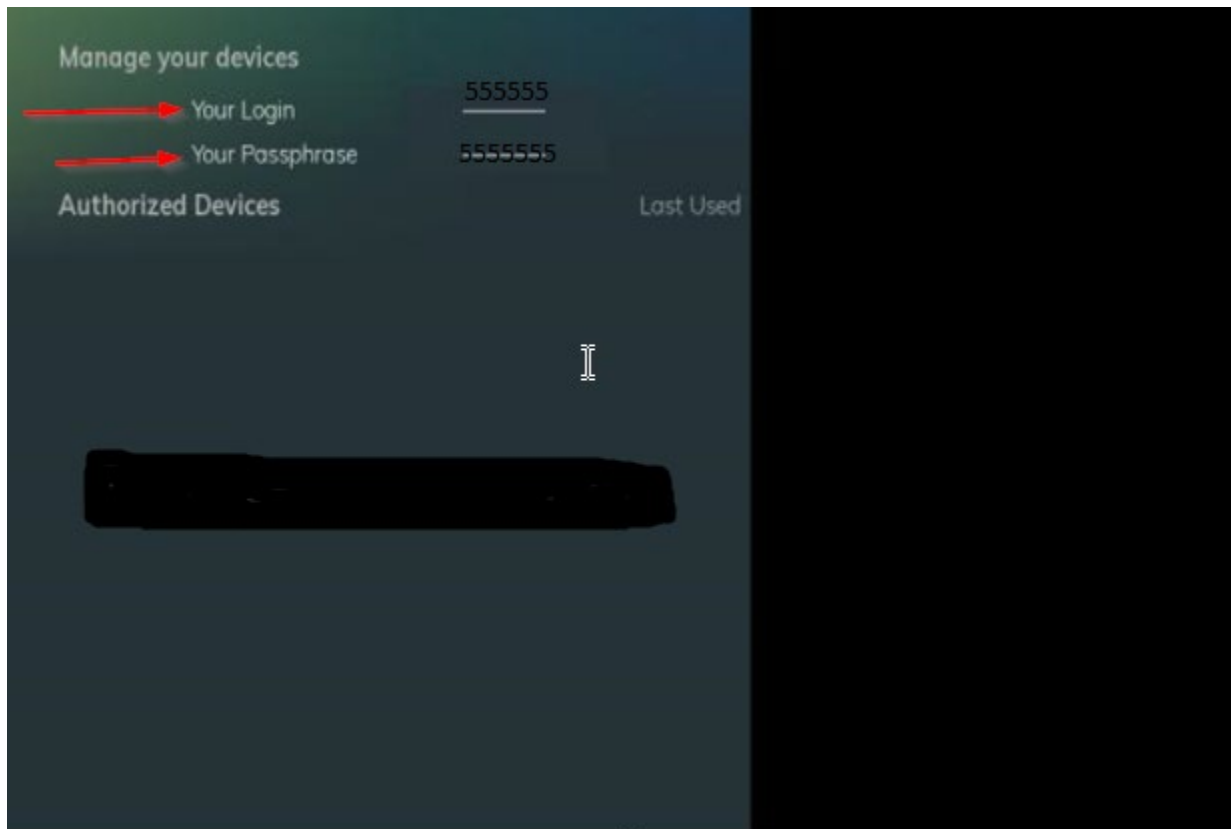

Step 12: Press the right arrow key once to move the blue bar over to the “Apps” menu. As shown in figure 9.

Figure 10 (Generating Device Login Code)

Step 13: Press the right Arrow button on the remote to highlight the “Device Code” as shown in figure 10 and press ok.

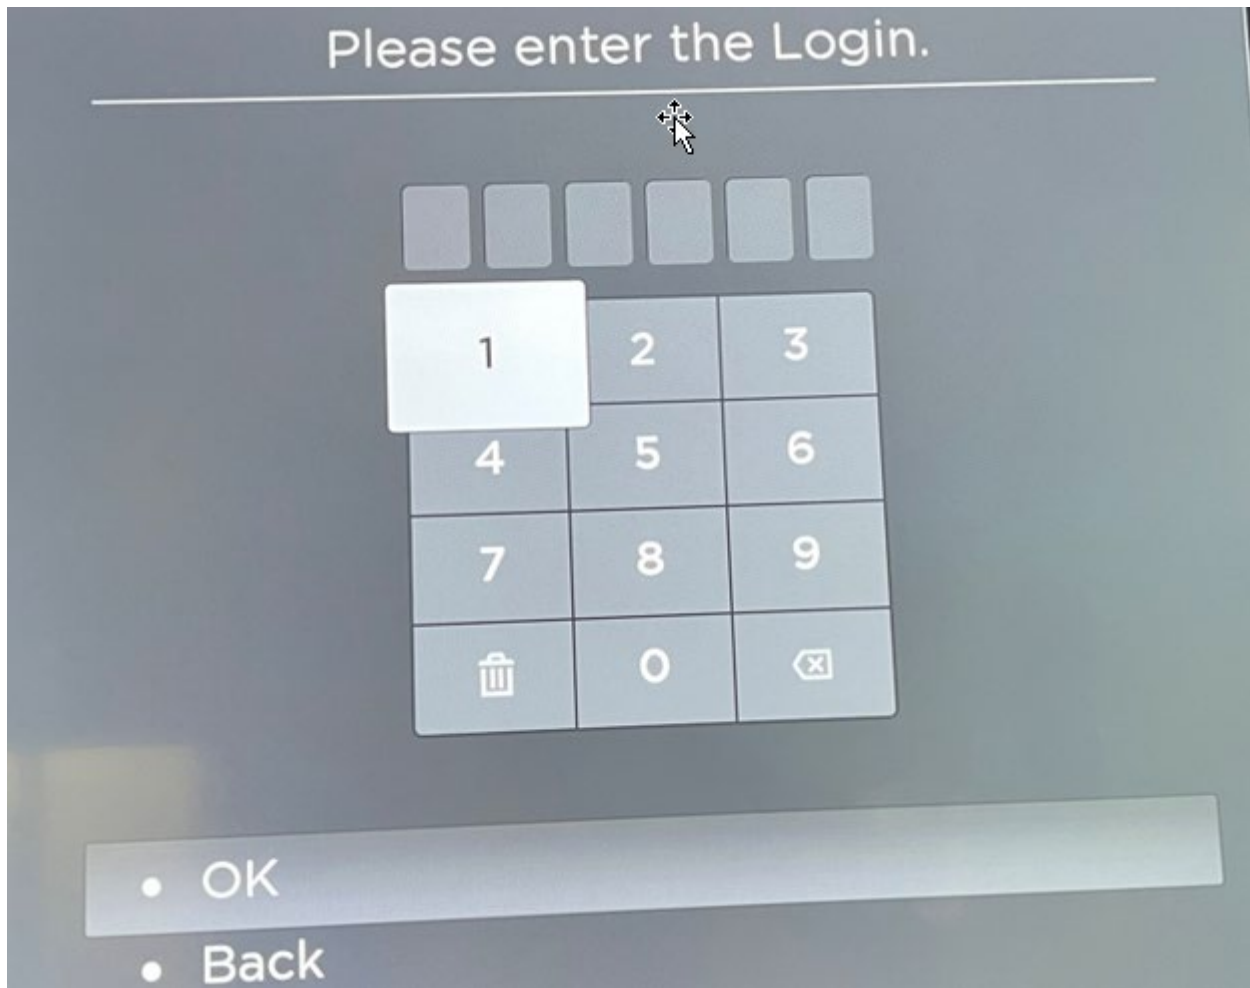

Figure 11 (Generating Device Login)

Step 14: Once OK is pressed the Set Top Box will give you a login and Passphrase. (Note: you will need both to activate your Empire Access Roku App.) This Device Login and Passphrase will be entered in your Roku device so it might be best to write the Device Login and Passphrase down before moving on to the next step.

Note: If you are having trouble generating a Device Login, please call 1-800-838-3800 and we will be happy to complete this step for you.

Figure 12 (Entering Device Login and Passphrase)

Step 15: In the Empire Access Roku App, enter the Device Login and press OK. The next screen will ask for the Passphrase. Both screens look the same as in Figure 12. You will notice the Passphrase is a few digits longer than the Device Login.

Figure 13 (Enjoy your new Empire Access Roku App)

Step 16: After entering the Device Login and Passphrase your new Empire Access Roku app will open. Great job! Sit back, relax and enjoy streaming your favorite channels in crystal clear HD!
